

GPS Data Transfer Tips

Transferring Data

1. **Check** - The Unit is docked and the USB is connected
2. **Open** - GPS Pathfinder Office
3. **Select** – The Second Icon down from the left menu
4. **Click** - **Add Files** and then select Data Files
5. **Transfer All**

Files will be saved in .../Documents/GPS Projects/Default

Email Data

1. Open Windows Mail or Office Outlook
2. Create New Mail
3. Send to dcope@cgis.com
4. Subject: (Township) GPS data (Content i.e. Updates, Culverts, etc.)
Attach Files -

5. Select the files in .../Documents/GPS Projects/Default

Additional Tips – Attaching a Zip folder instead of individual files

1. Press CTRL to select all the documents
2. Right click, select **Send to** then select zip folder
3. Attach to the email by following the same steps as above. **NOTE** : Zip folders compress the files making it easier to transfer.
